## Look Out! The Volcano is About to Erupt!

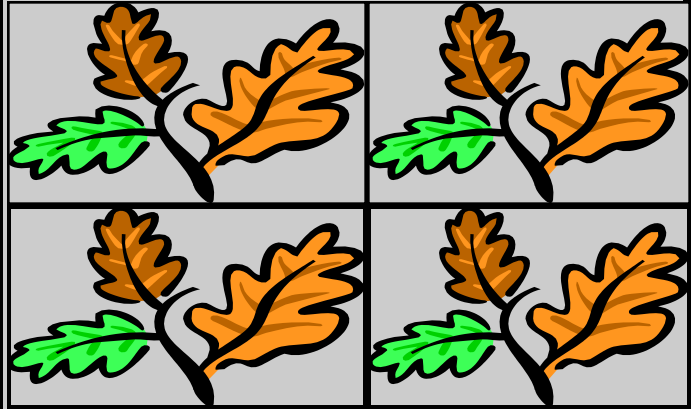

Students learned about forces that change the Earth. One of those forces is the erupting of volcanoes! Students built volcanoes out of Paper Mache. Students used baking soda, food coloring, vinegar, and detergent to erupt the volcanoes.

The purpose of this newsletter is to keep friends and family updated on the events that occur in our middle school. Our students are having fun learning new science and math concepts and learning about history around the world. We want you to know that the Islamic Academy of Huntsville's Middle School Program is the best place to be for your child's education! We hope you enjoy our newsletter.

Sincerely,

Middle School Staff

# Bridge Street Scavenger Hunt

The middle school teachers decided to test student's knowledge with a scavenger hunt!

**Scavenger Hunt Question!**

**Find an example of naturally occurring solid materials of Earth's Crust!**

**Example: Minerals/Rubies/ Diamonds**

**Scavenger Hunt Question!**

**Find objects demonstrating Newton's First Law!  
Objects at rest will remain at rest unless acted upon by an external force.**

**The middle school boys are demonstrating Newton's First Law.**

# Culture Fair

The middle school decided to study ancient Greece! Students learned about philosophers, mathematicians, and scientists. The students decided to perform an oracle speech to inform others of what they learned.

## Tate Farms

Students had a fun and Educational fieldtrip to Tate Farms. Students were provided with a guided tour, hay ride, instructions for taking care of crops, and a pumpkin souvenir.

Look at the BIG Tractor Wheels !

Playing in the Corn!
